

Height and Length 10/06/20

Good Morning Everyone! 😊

Yesterday you were learning about Height and Length with Mrs. Corrigan.

You looked at the biggest and smallest objects and the shortest and longest objects. Here is a measuring game for you to play which looks at comparing <https://www.topmarks.co.uk/early-years/lets-compare>.

There is also an [activity](#) for you to complete. Connor the caterpillar needs some help ordering all of the caterpillars from the shortest to the longest and then sorting them into sets, can you help him?

Have fun! 👍
