

Odd and Even Numbers 17/06/20

Good Morning Everyone! 😊

Yesterday you were learning about odd and even numbers with Mrs. Corrigan. Today we have a Numberblocks video for you to watch. The Numberblocks look at more odd and even numbers. I wonder if you can spot any?

<https://www.youtube.com/watch?v=0wzyD3qrWUc>

After, have a go at the [Ladybird Odd and Even Maths Activity](#). You need to count the ladybirds spots, then colour the ones with an even number of spots yellow and the ones with an odd number of spots red.

Can you write the number of spots next to the ladybird?

Have fun!
