

**\*Year 1 Foundation Quiz - 03.07.20 - ANSWERS\***

1. A stable structure means that something is strong and will not fall down. It is usually fixed to the ground or an object so it cannot be moved.
2. The straw is made from plastic.
3. Wool - natural, warm, soft, absorbent, strong.
4. The Eiffel Tower, The Shard and The London Eye.
5. Triangle
6. A chocolate teapot would not be a very good idea as the hot water would make the chocolate melt! A better material could be metal, glass or ceramic.
7. (Playground design)
